

# Oswin Yim

## FRONT-END DEVELOPER

I am a Front-End Developer with two years of experience in Hong Kong. I use my endless passion for innovation and coding to create web content that is engaging, intuitive, responsive, and most importantly, accessible. My ability to learn quickly and provide scalable solutions to complex problems will enable me to take on a software developer role. I keep learning next.js 13, and Tailwind CSS.

## WORK EXPERIENCE

Web and App Developer 2020 – 2022  
Freightamigo Services Limited

- Led another developer to implement RESTful APIs (get shipments, get transactions) which enabled the internal analytics team to increase reporting speed by 25%
- Implemented create shipment process such as create NBB form page to reduce sales team paperwork by 75%
- Designed the user system by adding social login to reduce customer registration time by half.
- Collaborated with product and marketing teams to the mobile process, improving retention and user experience
- Led internship to develop permission feature

## Recent PROJECTS

### Admin Dashboard

It uses Redux, Material UI, Node.js, and Express.js, MongoDB. The dashboard has dark mode and mobile responsive.

[Live](#) | [Repo](#)

### Airbnb Clone

It uses Next.js, Tailwind CSS, Typescript, map box, and firebase RESTful APIs. This app was built with a Mobile-First approach in mind using the React library.

[Live](#) | [Repo](#)

### Modern Login with Firebase Auth

You can register and log in with Firebase Auth services. It uses React, Custom Hook(useHttp), useContext, React router, and firebase auth. This app was built with a Mobile-First approach in mind using the React library.
