PROFILE

http://oswinyim.com/hk

I am a Full-Stack Developer with two years of experience in FreightAmigo Services.
I use my endless passion for innovation and coding to create web content that is engaging, intuitive, responsive, and most importantly, accessible.
My ability to learn quickly and provide scalable solutions to complex problems will enable me to take on a software developer role.
I keep learning Next.js 13, and Tailwind CSS.

EXPERIENCE

2020 - 2022 **FreightAmigo Services Limited**
Web and App Developer
Skills: Vue.Js, MySQL, PHP (CodeIgniter, Laravel)
● Led another developer to implement RESTful APIs
● Implemented Frontend and backend processes
● Redesigned the Login system by adding social login
● Collaborated with cross-office teams such as product and marketing teams to send campaign emails seasonally
● Experience with 3rd party API development (UPS, FedEx, DHL, etc..)

RECENT PROJECTS

ADMIN DASHBOARD
It uses Redux, Material UI, Node.js, and Express.js, MongoDB. The dashboard has dark mode and responsive web design.
🔗 *https://admin-panel-frontend-.vercel.app/dashboard*

AIRBNB CLONE
It uses Next.js, Tailwind CSS, Typescript, map box, and firebase RESTful APIs. This app was built with a Mobile-First approach in mind using the React library.
